Wells Watson Ginn, interpretative reader, scored well in his rendition of Booth "Parkington's" play, "The Man From Home," in which William Hodge starred at the second afternoon chautauqua entertainment today. He not only portrayed successfully the character of the "Man From Home," but interpreted the other characters as well, including the country bumpkin and the leading female roles.  
Mr. Ginn's reading of the Christian Science play proved a big success with the large crowd that filled the audience tent. His interpretations of the characters in the play of the Hoosier author were exceedingly well done, each being as different and as distinct as if they had been actors on the stage at the same time.  
**Musical Concert.**  
The Savranoffs rendered a musical program preceding Mr. Ginn's reading. The concert consisted mostly of instrumental selections. The instruments that the Russian trio used were a cello and violin. Mrs. Savranoff played the piano accompaniments. The Savranoffs represent the best musical talent of Russia and were

## SAYS ATTACK ON FRANK JUSTIFIED

Green Offers to Make Statement to Board—Injured Man Gains Strength.

MILLEDGEVILLE, Ga., July 21.—In the most extensive statement he has yet made, William Green Wednesday declared his attack on Leo M. Frank was justified and that he would explain the whole matter to Gov. Harris Saturday if the chief executive cared to hear the story. Green intimated that he had a specific cause for the attack but what it is, he refused to divulge. Still chained to a concrete post, he laughed heartily at newspaper reports that he is insane and read with evident enjoyment what purported to be interviews with him. "No wonder there's so much trouble in the world," he declared. "There's so many liars."  
"I was perfectly justified in what I did and I stand ready to prove it," he asserted. "I know what I'm doing and I know what I was doing Saturday night. This newspaper talk about me being crazy is all bosh."  
Beyond intimating that his forthcoming story may cause a sensation, Green declined to discuss the matter further.  
Despite a restless, nervous night and a troublesome pain in his throat, Frank's chances of recovery grew still brighter Wednesday.  
After an examination and redressing of his wound the attending physicians gave out the following statement:  
"Leo M. Frank's wound dressed and found to be in good condition. There is ample drainage. Inflammation is subsiding. Temperature and pulse both approaching normal. His condition is good."

## POLICE AND WORKMEN IN STRIKE FRAY

One Man Killed and Eight Hurt in Street Fight Near Bayonne Oil Plant.

## FIRE ENGINES USED TO DISPERSE CROWD

Many Deputies Being Sworn in to Prevent Further Trouble Among Rebelling Laborers.

**BULLETIN.**  
TRENTON, N. J., July 21.—Mayor Pierre Garven of Bayonne today asked Gov. Fielder to call out the national guard and send troops to Bayonne to put down disorder in the strike of 5,000 employees at the Standard Oil company's storage and refining plants.  
Gov. Fielder at once consulted with Adj. Gen. Sadler, but it is likely that the troops will not be called out unless the situation at Bayonne gets beyond control of Sheriff Kinkead and of Hudson county, and he joins in the request for armed soldiers at the scene of the trouble.

**RAYONNE, N. J., July 21.**—Three thousand five hundred employees of the Tidewater Oil Co., went on strike at noon Wednesday following a pitched battle between 1,500 Standard Oil Co. strikers and 140 policemen and special deputies in front of their plant in which one man was killed, eight shot and many badly injured by clubs and stones.  
Five hundred shots were fired and the officers were being overpowered by the workmen when eight fire engines of the Bayonne department responded to the riot call and dispersed the army of strikers with heavy streams of water. Police Inspector Gady had a horse shot from under him, six policemen were beaten into unconsciousness, and scores of others were struck by clubs and flying stones. Two saloons and many frame houses were practically wrecked. More trouble is expected.  
The police force is admittedly inadequate in handling the warring strikers and additional deputies are being sworn in at the city hall. All are being armed with heavy clubs and large calibre revolvers.  
**Resented Orders.**  
No trouble was expected today by officials of the Standard Oil Co., who yesterday closed the big plant following the strike of several hundred men, and forced 5,000 men out of work. At least 3,000 of the 5,000 were struck along E. 22nd st. for five blocks, when a large number of special deputies infuriated many by ordering them to move on.  
The deputies were instantly attacked. Several took refuge in a fire house next to the street from the "tidewater" plant, and others fled into two saloons and a number of frame dwellings as the strikers let fly a volley of stones weighing from one to five pounds.  
Using clubs and paving stones from the street the strikers battered down the fire house doors and attacked those within. Every policeman and deputy in the neighborhood came while the strikers hastened to the attack. The fire house was wrecked, the engine smashed and those within badly beaten before a squad of 100 police.

## WILL GO TO RUSSIA ON SECRET MISSION

**WASHINGTON, July 21.**—Edwin Warfield of Baltimore, nephew of ex-Gov. S. Davies Warfield of Maryland, has been sent to Russia on a confidential mission by the American state department. He will sail Saturday. The state department announced that Mr. Warfield had been added to the staff of the American embassy at Petrograd. Two other special representatives who were taken from the diplomatic service, also have been added to the staff at the Petrograd embassy, it was stated.  
Warfield has not been connected with the service. He is a young man, a good linguist, and a son of Pres. Warfield of Lafayette college.

## INDIANA DEMOCRATS MEET AT FRENCH LICK

**FRENCH LICK, Ind., July 21.**—For the purpose of revising the rules and presenting the names of its new members, the Indiana state democratic committee began a two-days' meeting here today.  
The six vacancies were created through the operation of the new primary law, which disqualified members who held appointive positions in the state service.  
Many prominent leaders of the democratic party were in attendance.

## WILL TO TESTIFY IF BECKER GETS CHANCE

**NEW YORK, July 21.**—Assistant District Atty. William A. DeFord has announced his willingness to testify should John Doe proceedings be instituted on behalf of Charles Becker, condemned police lieutenant. DeFord is said to have overheard talk attacking the reliability of the testimony given by the negro James Marshall. He will say that Marshall was instructed regarding his testimony about the so-called "Harlem Conference," one of the points which aided greatly in Becker's conviction.

## ASSERTS TALE BY BECKER IS RIGHT

Former Secretary to "Tim" Sullivan Says Alleged Slay-er's Words Are True.

**NEW YORK, July 21.**—The story written by Charles Becker in the death house at Sing Sing in an attempt to escape death in the electric chair for the murder of Herman Rosenthal, was corroborated today in many respects by Harry Appelbaum, former secretary to "Big Tim" Sullivan, whom Becker named in his long statement. Appelbaum further stated that he would help the condemned man to obtain clemency or a new trial.  
Appelbaum admitted many of the statements made by the condemned man had no motive for having Rosenthal killed as it had been arranged that the gambler was to go out of town instead of appearing before the grand jury as a witness in the gambling racket inquiry.  
"Becker's story is not as strong as it should be," said Appelbaum. "It does not go to the bottom of the matter. Becker has not been perfectly frank on all the details, but I've always believed in his innocence and I'm willing to do anything I can to aid him."  
Appelbaum was willing to admit that Becker saw Sen. Sullivan in his presence on the night of the murder, but Becker does not tell as accurately as he should what happened. Becker asked us not to have Rosenthal leave town, as that would reflect on him. He said that he was in a position, where he could not do it.  
"That doesn't look as if he planned the murder, does it?"  
"Had you arranged to have Rosenthal leave town?" Appelbaum was asked.  
"Yes. We had it all fixed and he did not intend to go before the grand jury. That destroys any motive Becker might have had for instigating the crime."

## ITALIANS PROTEST AGAINST TREATMENT BY TURKISH MEN

**ROME, July 21.**—Continued successes of the Italians on the Austrian front has inspired the part of the press a hostile attitude toward Turkey because of the harsh treatment of Italian subjects by the Ottoman government. Although Turkey and Italy are not at war it is charged that the German element has persuaded Turkey to abuse Italian subjects in numerous ways and treat them, in many respects, as though the two countries were in a state of hostilities.  
In this connection the Giornale d'Italia prints what is evidently an inspired warning to Turkey because of the "shameful treatment of Italian subjects in the Ottoman empire, whose departure was delayed or prevented at the instigation of the German element."

This newspaper declares that Italian public opinion is no longer willing to tolerate the provocations of the Young Turks and are demanding that the government assume a firm attitude and invite the Porte to abandon its hostile policy. The people demand that the rights of Italian citizenship be respected, says the Giornale d'Italia.

Continuing the paper says:  
"If Turkey believes she can take advantage of our war with Austria to offend our prestige, she is wrong. While Italy has no aggressive campaign against the Ottoman empire, yet she is no longer willing to tolerate the persecution of our countrymen. Let those responsible ponder upon these words, while there is time. We are voicing the sentiment of the country which is now demonstrating that it can defend its moral as well as its material interests."

## CONTENTS OF BERLIN NOTE KEPT SECRET

Reply Reported to be Friendly But Firm and Carries Strong Tone of Finality.

## SECRETARY LANSING MAKING LAST DRAFT

Understood Message Intimates Germany's Acts and Not Words Will be Judged in Future.

**BULLETIN.**  
WASHINGTON, July 21.—The note to Germany, conveying in a definite manner the attitude of the United States, will be sent to the Berlin foreign office probably within 48 hours, it was stated today. It is practically certain that the note will be dispatched before the Friday cabinet meeting. It became known today that Pres. Wilson worked practically all Monday night writing various sections of it and it is recognized on all sides that the communication will be a "last word" to Germany.

**WASHINGTON, July 21.**—With Pres. Wilson and the entire cabinet in accord on the general principles involved, Sec'y of State Lansing today began the final draft of the note, which is to go to Germany in a few days in reply to the Kaiser's recent unsatisfactory communication regarding submarine warfare and the rights of neutrals at sea.  
Officials still maintain an attitude of secrecy as to the text of the American reply. It will be made public when it is received in Berlin. It has been ascertained, however, that the answer of this government is friendly but firm in tone and that it carries a ring of finality which was lacking in former communications. The United States, in other words, after indulging in diplomatic correspondence with Germany for several months, desires now to close the long drawn argument into which Germany appeared to be drawing the administration.  
Sec'y Lansing has the official report on the Orduña attack. Investigation of reports that the German vessel fired a torpedo at the Orduña before signalling her to stop is still under way.

**CHUMINATE Orduña.**  
It is stated officially that the reply to Germany will not be delayed for the report on the investigation of the Orduña incident. This investigation was begun by the treasury department, the instance of the department of state, but it is not possible to insert it into the note to Germany while it is being ascertained whether a submarine fired on the Orduña without warning.  
Should the investigation prove that the Orduña was attacked without warning and the lives of more than 20 Americans aboard her jeopardized, that fact would aggravate the present situation between Germany and the United States. It was felt by the president and his advisers, however, that the case of the Lusitania and the general principles involved in the long standing controversy were sufficient for the purpose of the reply which now is in course of preparation, and there is to be no delay in its dispatch.  
Cabinet members have endeavored to make it clear without directly revealing the contents of the American reply, that it is not to be considered as an ultimatum to Germany. It is yet bellicose in tone and this government has sought to avoid bombastic threats. Nevertheless, the American note will not be of a milk-and-water character, which will encourage and invite the Porte to abandon its hostile policy. The people demand that the rights of Italian citizenship be respected, says the Giornale d'Italia.

The keynote of the reply, it is understood here, is that Germany must be judged by her acts rather than by her words.

**QUEENSTOWN, July 21.**—The body of Richard S. Stone, son of Melville E. Stone, of the Associated Press, was found at Bally Bunion, a small town at the mouth of river Shannon today. He was a victim of the Lusitania disaster. The identification was made by articles found on his body.

## NO CHANGES ARE MADE BY BOARD

Valuations on Michigan St. Property Stand Probe of Board of Review.

No changes in the valuations for the purpose of taxation, placed by Assessor Voorde on Michigan st. real estate, between Washington and Wayne sts., with one exception, have been made by the St. Joseph county board of review. Many of the owners believe that an injustice has been worked on them but no organized effort has yet been made with a view of appealing to the board to have them changed.  
The board has reduced the valuation on a large portion of the pieces of real estate on both sides of the street between Washington and Lasalle and between Main and Monroe sts. Slight reductions were made in a few instances on improvements down town but these do not substantially change the figures made by Voorde. Some changes were made on the east side of Main st. and on the north side of Washington between Main st. and Lafayette st. No changes were made on Washington st. between Michigan st. and Main st., or on the west side of Main st.

The board ended its work on the down town property Wednesday forenoon. There has been little change made during the session on figures in the residence district. Slight reductions have been made but these changes have generally been made necessary through errors of the assessors. The general increase through out the city as made by Voorde in his declared attempt to equalize the assessments and at the same time to meet the demands of the county for increased revenue, stands practically unaltered.

Following are the figures of the assessor and of the board on the property on which changes have been made in the appraisal:

On the south the troops of Field Marshal von Mackensen have occupied Radom which is only 30 miles from the great and important fortress of Ivangorod on the Vistula river. Field Marshal von Hindenburg's artillery is already thundering against the Russian lines and the key to Warsaw from the northwest.

## CONFIRMS NEWS OF MEXICO CITY

State Department Informed That Zapata Forces Have Again Taken Capital.

**WASHINGTON, July 21.**—Confirmation of the re-occupation of Mexico City by Gen. Zapata's forces was reported today from the state department today from its representatives in Vera Cruz. The dispatches gave no details of the movement of Gen. Gonzalez's army after he withdrew north from the capital to meet the "flying" column of Gen. Villa's forces which took Pachuca on July 16. The Carranza authorities in Vera Cruz, however, admitted that they had given up Mexico City and that rail communication with the capital was broken.  
From Canan, the largest mining camp in northern Sonora, Consular Agent Chase reported that considerable looting and disorder followed the withdrawal of the Villa garrison and officials there on Monday. The authorities had no sooner left the town than the disorderly element began seizing horses, saddles and other property. Fire started in the vicinity of the Mercantile bank and was suppressed only with the greatest difficulty.  
Gen. Calles' force of Carranzistas arrived on Tuesday and took possession of the town.  
The department had no report on the charge made at Naco, Ariz., that Carranzistas trampled upon an American flag taken from a camp in Naco, Sonora, when they occupied that town yesterday.  
The Mexican situation has become more complicated as a result of the developments at the capital, in the opinion of officials, and there was a tendency in administration quarters not to draw any hasty conclusions.  
It was pointed out that over night changes in Mexico have become the fashion and there is no certainty that the party in power may not be removed from authority by a new faction tomorrow.

## WELSH COAL MINERS RETURNING TO WORK

**CARDIFF, Wales, July 21.**—More than 8,000 miners returned to work in the South Wales coal fields Wednesday without waiting for their federation's official endorsement of the settlement reached yesterday through the efforts of Minister of Munitions David Lloyd-George. By tomorrow night it is expected that all the strikers will be back at their work.

The terms of the settlement are regarded as highly favorable to the men and the general belief was that it would be ratified by the federation practically without opposition.  
At 12:45 o'clock this afternoon, it was announced that the miners' delegates had accepted the terms of the settlement and had ordered work in the mines resumed at once.  
After the endorsement of the strike settlement by the miners' delegates, Minister Lloyd-George delivered an address to the miners. In this he appealed to the men to make up for time that has been lost. He was given an enthusiastic reception by the miners and when he urged them to give their patriotic aid to the nation they shouted:  
"We will! We will!"  
At the conclusion of his address, he was cheered for more than four minutes.

## TEUTONS ARE IN GUN SHOT OF BIG GOAL

Great Tussle For Polish Capital Has Now Reached its Most Decisive Stage.

## RUSSIAN CZAR GOES TO EASTERN FRONT

Emperor Nicholas Expected to Put New Spirit in His Troops—Reserves Are Called Upon.

**BERLIN, July 21.**—The mighty battle between the Austro-German armies and the Russians for the possession of Warsaw is now in its decisive stage and so confident are the Germans that they will take the Polish capital within the next fortnight that they are already making plans for the triumphant entry of the Teutonic hosts.  
Emperor William is already upon the eastern front, where he is assisting in the direction of the three gigantic armies under Field Marshal von Hindenburg, Field Marshal von Mackensen and Gen. von Beulow.  
The empress has been invited to the Polish front and she plans to leave on Friday for Posen, where she will be met by the Kaiser. According to present arrangements the Kaiser and Kaiserin will ride at the head of the Germanic armies as they make their solemn entry into Warsaw should the city fall soon.

**Shatter Defenses.**  
Surging forward with irresistible force, the three armies that are taking part in the Warsaw drive are breaking down, one by one, the barriers defending the Polish capital. The defenses at Ostrolenka, on the Narew river, 60 miles northeast of Warsaw, have been shattered.  
Piercing the Russian lines that have held them in check since December, on the Rawa and Bzura rivers, the Germans have pushed on to Tomie, only 15 miles west of Warsaw, and occupied the town. This puts them within easy artillery range of the city itself. The Blonie line has always been regarded by military authorities as the final line of defense for Warsaw.

On the south the troops of Field Marshal von Mackensen have occupied Radom which is only 30 miles from the great and important fortress of Ivangorod on the Vistula river. Field Marshal von Hindenburg's artillery is already thundering against the Russian lines and the key to Warsaw from the northwest.
